Dear Families,

Winter is very much here and children have been keen to help reinvigorate the garden with cold weather vegetable plantings. We harvested the lettuce, sweet potatoes and capsicums and are still watching the cabbage grow. This week we are planting three varieties of beans, sugar snap peas and parsley. Thinking about being water wise has prompted us to swap buckets for spray bottles for sand sculpting and next week’s trip to Umberumberka reservoir will help us gain even more insight into why we should use ‘less’ water wherever possible. This links to the Early Years Learning Framework outcome 2, which focuses on developing understandings about sustainability and a sense of shared responsibility for our communities and the environment. Making potato people and watching their horns grow is helping us learn more about growth, time and change. We also have enjoyed reading ‘Jack and the Beanstalk’ and sketching our own wonderfully long beanstalks too!

Thank you for the kind donation of a mini trampoline to Preschool from the Carter Family. It will be loved and is much appreciated.

Dates for your diary

Tuesday NEXT WEEK – 23rd June - Session 1 Bus trip to Silverton and Umberumberka

Thursday NEXT WEEK- 25th June - Session 2Bus trip to Silverton and Umberumberka & last day for Term 2

First day of Preschool for Term 3 – Tuesday 15th July

We wish you all and wonderful weekend, from Lyndal and Andrea.
