In planning classroom activities, a risk management approach needs to be taken. Teachers need to identify potential hazards, assess risks and select the most appropriate way of eliminating or controlling them before undertaking activities with students. Relevant Departmental policies and procedures must be considered when planning classroom activities. The tools and materials below will assist staff with their planning and ensure the health and safety of students and staff. Principals need to ensure that teachers and SASS staff with classroom responsibilities have a good understanding of duty of care, safety in the classroom, child protection and student welfare. These issues should be discussed regularly in staff meetings, faculty and stage meetings.

Key points

**Teachers** should:
- Plan for safety of students and themselves, taking a [*risk management*](#) approach to school activities.
- Take into account the learning outcomes against the hazards and inherent dangers of engaging in activities.
- Develop class behaviour rules and consequences.
- Establish clear and workable routines for entering and leaving rooms, moving around the classroom and school, distributing and collecting materials and resources, manual handling and working independently or in groups.
- Assess and manage risks in specific subject areas e.g. Science and Visual Arts.
- Avoid hazardous activities where their own level of skill or knowledge may be limited.
- Use resources, including machinery and equipment, appropriate to the maturity and skill of students.
- Instruct students in safety issues, such as safe use of equipment prior to commencing each activity.
- Ensure appropriate use is made of all safeguards, safety devices and personal protective equipment. See [*Guarding of equipment and machinery*](#).

**Principals** need to:
- Provide instruction, information, training, supervision and support to teachers to ensure they maintain safety in the classroom.
- Address the safety issues raised by teachers.
- Address breaches of safety and classroom incidents without delay.
